

Meet Our Two Newest CFIs Max Malloy and Alex Faiman

A Message From Max

I started my flight training in March of 2021, right here at Fly Legacy. The jump into Aviation was a career change, and came with a lot of unknowns and stress. Fortunately, I had selected a school with a group of supreme instructors and staff that made what I thought was only a dream career, a reality. I look forward to stepping into the shoes of those who led me to success, and help you make what may only be a dream, too, a reality. The hard work, grit, and determination you apply will always be reciprocated. I'll see you around the school, and I look forward to flying with you!

A Message From Alex

Greetings! I am extremely excited to join the team at Fly Legacy who share my passion for aviation. While my interest in aviation began young, my dreams of flying were not realized until a couple years following graduation from The Ohio State University. The road to achieving goals in aviation are not always smooth, however with a great team like Legacy's to support you, they are well within reach. Please let me know how I can support you in your journey, and I hope to fly with you soon!

Get to Know the Fly Legacy Aviation Maintenance Team

Ernest Arndt

Director of Maintenance, IA, A&P

Meet Fly Legacy's Director of Maintenance, Ernest Arndt. Ernie became interested in vehicles at the age of 16. At the age of 25, he went to school at WYO Tech in California and obtained his Airframe and Powerplant License. After receiving his License, Ernie gained five years of experience working in General Aviation, followed by five years of experience in the aerospace industry, and seven years of experience in the airline industry. It was at that point Ernie decided he wanted a more hands on experience and joined the Fly Legacy maintenance team. In 2022 Ernie earned his Inspection Authorization. He enjoys spending his free time playing tennis and reading.

Kevin Varghese

A&P

When he was 12 years old, Kevin came to the US from India. He was always fascinated by how airplanes fly and as early as he can remember, if he ever heard an airplane flying overhead he would run outside to grab a glimpse. Kevin earned his Bachelor's Degree in Aviation Maintenance Technology from Pennsylvania College of Technology in Williamsport, PA, home of the Lycoming Engine. Kevin then spent the next five years working for Lycoming Engines, gaining experience building, R&D, and product support, which took him all around the world. It was at that point Kevin desired a more hands on experience and joined us in June 2022. "I work with this amazing team and as a newcomer to an active maintenance team environment they help me a lot."

Dantezs Morgan

A&P

Dantezs graduated from Aviation Institute of Maintenance in 2017. Dantezs is a very hands-on person and has an extensive background in carpentry. He joined the Fly Legacy team 1.5 years ago. When Dantezs is not fixing airplanes, he can be found building houses or fixing automobiles. In his spare time he enjoys bowling and building model airplanes.

Morgan Kelly

Manager of Parts and Inventory

Morgan has been with the Fly Legacy Aviation team for three months. Prior to joining she managed several other businesses and has experience with inventory control. At Legacy, Morgan is tasked with the role of inventory management and maintenance support. In her spare time Morgan enjoys reading and watching TV.

Kornel Pesti

Female Aviators Meeting a Success!

Thank you to all the ladies who joined us for our first ever women aviators meeting! We had a great turn out and it was a wonderful opportunity for the ladies of our community to connect, share stories and experiences, and enjoy fun games! Please be on the lookout for upcoming information on the next quarterly meeting.

Off to the Airlines

Katie Benson, Piedmont Airlines
John Westervelt, PSA Airlines
Kevin Charyszyn, PSA Airlines

A Message From Our General Manager, Alex

"I'd like to take a moment to recognize and thank Kevin Charyszyn for his dedication and hard work here at Fly Legacy. Kevin is the first person at the flight school to complete his entire training from start to finish, beginning with PPL and continuing through IR, CPL, CFI, CFII, and multi-engine with Fly Legacy before moving into the role as an instructor, and now earning a position as First Officer with an airline. This is a milestone moment for Fly Legacy and we are all so proud of him and grateful for the path he set for future students."

We wish Katie, John, and Kevin continued success as they continue to pursue their career goals!

Where Are They Now?

Daeshawn Rose

Fly Legacy's former CFI, Daeshawn Rose, recently upgraded to Captain at Piedmont Airlines. Daeshawn spent approximately a year as a CFI with Fly Legacy before being hired by Piedmont Airlines as a First Officer. Recently, Daeshawn upgraded and is currently a Captain with Piedmont Airlines based out of Philadelphia International Airport. We are so proud of your accomplishments and wish you continued success, Daeshawn!

A Message From Daeshawn

"It's going to take a lot of dedication and time and hard work but if flying is fun and something you love to do it's worth it in the end!"
