Online Bachelor of Science in Professional Flight

Fly Legacy Aviation and Purdue University announced a partnership to address the projected global demand for aviation professionals over the next 20 years.

Starting December 2021, students accepted into the program will complete their Bachelor of Science degree courses online through Purdue Global, while completing professional flight training at Fly Legacy Aviation in Philadelphia, Pennsylvania.

Online Bachelor of Science in Professional Flight

Students who complete all 5 flight certificates (Private through CFI), will receive 45 college credits from Purdue Global towards their Bachelor's Degree in Professional Flight, equivalent to one year of college credits. Students who have college credits from previous schools may also receive additional transfer credits thereby saving them even more money and allowing them to graduate even faster.

This partnership would also entitle all our flight students and employees as well as their immediate family members to a 20% tuition discount off undergraduate degrees and certificates and 14% off graduate degrees and certificates.

As United States airline pilots approach the federally mandated retirement age of 65, the industry faces a shortage of pilots. Reports forecast a need for 804,000 pilots over the next 20 years, and airlines are already finding it hard to fill open positions. This new program is designed to get students flying immediately, shortening the timeline to professional pilot in order to meet this demand.

"At Fly Legacy Aviation, our primary focus is on providing high quality flight training to create future aviators that are job-ready," Fly Legacy Aviation GM Alex Souponetsky said. "We are excited to partner with Purdue, one of the most prestigious aviation universities in the world, to offer an accelerated and discounted degree program to our students."

Thank You, Diego!

Fly Legacy Aviation would like to thank one of our devoted instructors, Diego Arietta for his commitment over the past year and a half to the flight school. Instructing over 25 students, Diego's passion for aviation was well recognized as he inspired many. Diego has achieved his lifelong dream of becoming an airline pilot at Republic Airways and has accepted a position as a first officer. His positive attitude and charisma will be missed but from all of us at Fly Legacy we wish you the best of luck in your future endeavors.

"Time really flies at Fly Legacy. After a year and a half as a flight instructor, I am headed to Republic Airways to fulfill my lifelong dream of becoming an airline pilot. Although challenges were always present, the reward of helping someone achieve something so great made every moment worth it. I could have not done so without the wisdom and professionalism of the team of staff and fellow instructors. I will be forever grateful for the opportunities that were given to me here at Fly Legacy. Remember, NEVER give up on your dream! — **Diego Arrieta, CFII**

Kids Camp

Join us in our 2022 kids camp weekend programs!

- **February 12-13, 2022**
- **March 12-13, 2022**
- **April 9-10, 2022**
- **May 21-22, 2022**

All students will have an opportunity to participate in STEM challenges, hands-on critical thinking activities and will pilot a flight simulator as well as an airplane. Join aerospace professional Gregory P. Kennedy in a weekend filled with fun and learning!
